EXPERIENCE

Learning Threads Corp, San Diego — *JavaScript Backend Developer*

Sept 2015- Jan 2016

Leveraging (NodeJs) I wrote features for backend architecture, mostly dealing in routes & mongoose schema. With a TDD approach with gulp, the project being in (beta). The lead developer, myself at the helm of the backend developers, spent a lot of time on growth of product from Alpha to Production.

MongoDB University — *M101JS: MongoDB for Node.js Project*

Oct 2015 - December 2015

Creating, Reading & Updating Data (CRUD)

NodeJS Driver Implementation

Schema Design (Awesome)

Performance

Aggregation

NodeJs Repo — *Node.js Collaborator*

December 2015 - Present

(On 3 teams) And (5 repos)

On my first day, I closed 3 issues & have since been keeping issues well hedged(shrubs) #1 Contributor in Nodejs/help Repo. I help with the docs team, nodejs.org team, ever so often but I'm mostly found in the help repo.
